EDUCATION

M.S. Software Engineering

Arizona State University, Tempe, AZ

Expected May 2024

GPA: 4.0

B.Tech. Computer Science & Engineering

SASTRA Deemed to be University, India

2015 - 2019

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Freshworks Inc.

10/2021 – 07/2022

Chennai, India

- Created REST API for admin operations backed by Memcached for 60% faster response time.
- Coordinated cross-team API review of RFCs from developers and external developer advocates.
- Developed JWT authorization system for role-based API access between Spring Boot microservices.
- Created fault-tolerant CI/CD pipeline on AWS Spot EC2 with dynamic scalability of Kubernetes pods.
- Built containerized test suites with Jenkins and reduced execution time from 2hrs to 30min - 75% faster.
- Provided on-call support for debugging performance issues in RabbitMQ consumers and microservices.
- Served as mentor for interns by teaching full stack programming and coached for contributing bug fixes.

Software Engineer

Freshworks Inc.

08/2019 - 10/2021

Chennai, India

- Developed Python importer scripts to download data from rate-limited APIs with exponential backoff and boosted throughput by 25%.
- Designed fault-tolerant file uploader with S3 multi-part upload and reduced failures by 40%.
- Created Grafana dashboards for API request observability and application performance monitoring.
- Provided L2 technical support to resolve issues by talking to customers and assisting Go-to-Market team during new customer onboarding.

Software Development Intern

Norton LifeLock (formerly Symantec)

01/2019 - 06/2019

Chennai, India

- Created communication SDK for Norton browser extensions using Chrome Message Passing API.
- Optimized redundant scans in Content Scripts and reduced React component mount time by 50%.

Web Development Intern

Edlocus Solutions

05/2018 - 06/2018

Chennai, India

- Designed Python Django web app to solve virtual showroom use cases of truck customization.
- Created responsive HTML templates for estimation operations and improved loading time by 30%.

RELEVANT ACADEMIC PROJECTS

Improving Cloud Service Provider Prices

- Created Python Django app to estimate selling price of cloud services with Analytic Hierarchy Process.
- Improved pricing scheme of component services to gain 25% more profit without affecting brand loyalty.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C++, SQL

Frameworks & Libraries: Spring Boot, Ruby on Rails, React, Ember JS

Databases: MySQL, Redis, Memcached

Cloud Technologies & Tools: AWS (EC2, RDS, S3), Kubernetes, Grafana, RabbitMQ

Certifications: AWS Certified Solutions Architect Associate, Docker Certified Associate
